

## Banking, Finance & Insurance

- Does your bank, insurance, broker or investment company plan to enter the Czech market?
- Is your internal team too busy, or does it lack sufficient experience or personnel to cover all legal issues?
- Do you see an opportunity to start a PPP project but are afraid of the legal risks?
- Do you consider leasing the most suitable option for financing your operations?
- How much do you know about the regulatory issues concerning the banking & finance market?
- Do you think your insurance does not cover all possibilities?
- Are you concerned about the impact of the EU bank & finance regulations on your business?

### How we can help you

- Prepare comprehensive solutions and advice on a full range of bank and financial transactions, instruments, structures and techniques, and provide related project management of large financial transactions.
- Provide legal advice and assistance regarding structured financing, credit financing, equity, assets financing, acquisition financing, securitisation, PPP projects and financial derivatives transactions, leasing, factoring, etc.
- Prepare or review documents relevant to financing or re-financing of your company's business activities including applicable security arrangements, and assist you during negotiations with your bank, insurance company or other financial institution.
- Represent you in negotiations with involved authorities and provide ongoing advice on bank and financial institution matters, compliance, etc.
- Offer advice and assistance to companies entering or leaving the Czech market in the banking, finance and insurance sector.
- Provide advice on regulatory issues, and review your company's compliance with the applicable rules.
- Assess the impacts of the EU regulations on operations of financial institutions in the Czech Republic.
- Provide legal assistance with respect to liquidation or bankruptcy proceedings.
- Help you with legal disputes against debtors and enforcement of your claims.
